

KL-15 | KL-07

Rugged & Portable Digital Level

Simple, Fast and Accurate

- 1.5mm precision for DL-15/ 0.7mm precision for DL-07
- 110m distance measurement
- Magnetic damping Compensator
- Onboard measurement and recording programs
- 20,000-point memory & SD card slot
- Ideal for construction and general applications

User friendly & Practical

Automatic reading: Minimize human errors, no more misreading

Higher Accuracy: Averaging mode for more accurate results

Rapidity: Shorten the measuring time by a half

Auto Save: Internal memory storage or SD card memory optional, paperless working.

Powerful Post-processing Software

It contains adjustment routines for dynamic adjustment of horizontal & vertical control network and angle & direction adjustment.

Easily zoom in or out to see the overall data in graphic.

Seamless Transfer with Various Data Formats
